ISO 9001

Gulf Markets International W.L.L (GMI) has been a leading service provider for over 40 years, building a market reputation in supplying the highest quality products from some of the largest manufacturers across the world.

## Who we are

**INDUSTRIAL  
SUPPLIES AND  
SERVICES**

**LIFTS &  
ESCALATORS**

GULF MARKETS  
INTERNATIONAL

ISO 9001

The Company has rapidly adapted to the changing business environment within the GCC region and abroad, expanding its business geographically across the MENA region and Asia.

## Industrial Supplies & Services Division

We supply and provide services to various customers in the GCC region and globally in different industrial applications, such as Aluminium, Oil & Gas, Cement, Iron & Steel and others.

Thanks to our strong and extended ties with internationally renowned suppliers and Principals. We have built an extensive sourcing platform with various companies from different part of the world, such as Europe, Canada, USA, India, Korea, China & the GCC.

## Oil & Gas

GULF MARKETS  
INTERNATIONAL

## Our Range For Oil & Gas

- Refractory supply & related services
- Chemicals
  - a) Intermediates for resins and plasticizers
  - b) Deliquescent agents
- Environmental Filter Bags
- Insulation
- Thermocouples & RTDS
- Special Valves
- Metallic Expansion joints
- Metering skids

GULF MARKETS  
INTERNATIONAL

## Metering Devices

### Metering & Measuring of Oil & Gas

Complete Design, Supply and Installation of :

- Gas Measurement Stations
- Liquid Metering Stations - Turbine Metering and Flow Test
- City Gate Stations
- Meter Provers
- Pressure Regulating & Reducing Skid
- Gas Deaerators

# EN-FAB Equipment Offerings

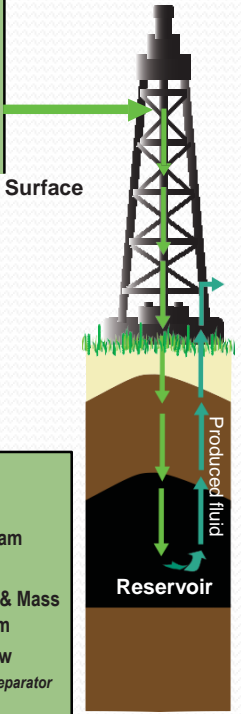

EN-FAB Designs and Manufactures the Following Equipment for Oil and Gas Industry.  
 EN-FAB also owns, operates and maintains oil field surface equipment.

**EN-FAB, INC.®**

- A. Enhanced Recovery of Heavy Oil
- B. Gas Gathering & Oil Production
- C. Oil & Gas Pipeline
- D. Metering & Measurement of Oil & Gas
- E. End Users: Refinery, Power Plants, etc.

**A.**  
 Enhanced Recovery of Heavy Oil Using Steam / Water / Gas

- E.O.R. Water Softeners
- E.O.R. HRSG
- DAN-SQUID® 2-Phase Steam Distribution System
- DAN-STM® Steam Quality & Mass Flow Measurement System
- Steam Quality & Mass Flow Measurement using Steam Separator
- Water-Flood Packages
- Chemical Injection Packages
- Deaerators
- Build, Own, Operate Maintain Steam Injection Facilities

**B.**  
 Gas Gathering & Oil Production Facility

- Early Production Facility
- Modular Production Systems
- 2 & 3 Phase Separators
- Production & Test Separators
- Production & Test Manifolds
- Free Water Knockout Skids
- Produced Water Packages
- Heater / Treater

**C.**  
 Oil & Gas Pipeline Equipment

- Glycol Dehydration Systems
- Filter Separators
- Pipeline Gas Blowdown Systems
- Scrubbers
- Mainline Block Valve Skids
- Liquid Metering Stns
- Meter Provers
- Leak Detection Unit
- Quality Analyzer System
- Slug Catchers
- Surge Control Systems

**D.**  
 Metering & Measurement of Oil & Gas

- Gas Measurement Stations
- Pr. Regulating / Reducing Skids
- Quality Analyzer Systems
- Leak Detection Units
- Control Systems & Panels
- LACT Units
- Gas Deaerators
- Strainers

**E.**  
 End Users: Refinery, Power Plants, Fertilizer Plants, etc.

- Thermal Liquid Heaters & Systems
- Direct & Indirect Fired Heaters
- Desalters
- Demulsifiers
- Gas Measurement Stations
- Pressure Regulating & Reducing Skids
- Fuel Gas Cond. Systems
- Liquid Metering Stations
- Meter Provers

Automation & Robotics

Our partners have been providing global turnkey installations for over 25 years; executing projects on four continents and in more than 25 countries. PARI's range of services provide support, lower operating costs, and a faster return on investment

#### AUTOMATED ASSEMBLY

- Projects that have production volumes from 25,000 to 450,000 parts per annum,
- Fully manual, semi-automatic, and fully automatic processes.

#### AUTOMATED MACHINING

Machining solutions processes such as:

- Parts loading, unloading, turning, milling, and grinding.

#### AUTOMATED MATERIAL HANDLING & LOGISTICS

Expertise in material handling solutions;

- Glass handling to working with molten metal.
- Robots, gantries, conveyors and other solutions to meet customer's needs.

### Metal Transfer System :

- Precast Launderers
- Filter Bowls
- Flexible Launder Joints
- Launder Covers
- Tundish
- Combo Bags

### Precast Shapes :

- Down Spouts
- Refractory Dams
- Nozzles
- Stopper Pins

ASSET INTERACTIVE

## Digital For The Industry - By The Industry

Alizent for over 20 years have been committed to delivering innovative technological solutions to the Industrial sector. Digitally connecting clients workforces and customers with their assets and transforming knowledge into data to create efficiencies, new revenues and customer satisfaction.

### **Solutions:**

- Returnable Assets Management
- Remote Assets Management
- Production Assets Management

Progressively enabling secure remote control solutions, as well as predictive maintenance intelligence. The solutions also allow to monitor pipeline networks, and can be combined with counting cabins to charge customers consuming directly from the pipeline.
