WHO WE ARE

Gulf Markets International W.L.L (GMI) has been a leading provider of highly specialized products and services for over 40 years, building a market reputation in supplying the highest quality products from some of the largest manufacturers across the world.

Successfully established in the Kingdom of Bahrain since the seventies, GMI has continued to deliver various products and services to its customers while assuring sustainable growth over time. The company rapidly adapted to the changing business environment internationally and particularly within the GCC region by expanding its business into various fields such as industrial & construction technologies, sustainable energy and technical services. Our excellence in quality and service has positioned us as a leading provider and a vital partner to many governmental institutions and private organizations across the MENA region and abroad.

Mission

We strive to provide the best quality products and services, exceeding the expectation of our customers and partners.

Vision

We aim to expand globally and emerge as the most preferred choice for our customers.

Values

Team Work,
Honesty,
Commitment,
Quality and
Trust.

Our Partners

AGRICULTURE DIVISION

Specializing in promoting and marketing various agricultural and horticultural products, GMI is the sole agent for some of the world's most reputed companies in this field. Our substrates and grow bags use the world's highest quality ingredients, providing growers with a superior, consistent mix with optimal physical and chemical properties for each crop, ensuring high performance and multipurpose growing. We are also associated with some of the world's most advanced hydroponics and aeroponics systems designers, producers and operators that can provide robust sustainable agricultural production environments.

Jiffy is the leading global supplier of growing systems, hydroponics, natural growing containers and substrates for any type of plant propagation and cultivation enterprise, regardless of size and volume. Our solutions have no limits base on plant type and use renewable resources and bio-base materials such as peat, coconut coir, pulp and other bio-mass. We abide by the highest industry standards in order to safeguard the environment and supply the highest quality products to our customer.

Jiffy

Sicomix is a unique chloride-free slow release fertilizer that is supplied in both tablet and powder form. The product contains special nutrient compounds that ensure a balanced nutrition of all macro- and micronutrients to perennial crop plants for a period of 1 to 2 years. This unique fertilizer can be used to grow all types of perennial plants, fruits, flowers, ornamental, wetland, tropical and subtropical plants. Sicomix provides considerable savings in time and labor, prevents undesirably high concentrations of nitrogen and is environmentally friendly.

Our unique range of solutions enables us to design, procure, install, commission and operate a variety of hydroponic and aeroponic systems and grow houses. Our partners and technology providers have commissioned a variety of modern and efficient farms across the globe. These systems are able to guarantee suitable plant production and growing environments regardless of the prevailing climate and season. We are able to provide all current technologies and systems in the field of agrotechnology, depending on our clients needs.
